MRRA notice from recent Boathouse User Group meeting from Karen Scammell via email:

*One item from the Boathouse user group meeting is that on Tues and Thurs mornings both UML and LHS have morning practice at 5:30am.*

*So on Tues-Thurs it is going to be very busy at the boathouse and on the docks. It is critical that all rowers get on and off the docks within 90 seconds. We also need to use the inside of the docks for launch/return.*

*Remember to be wearing white lights facing the stern and the bow lights on the bow when launching in the dark, or if the evening, when it will be dark while you are on the water.*
