August minutes approved.

Ashley and Charlotte requested permission to use MRRA sculling equipment. UML rowing is trying to come back after COVID. They want to have both sweep and sculling options for the crew. They assure that all rowers will be under constant coached supervision. They agree that a MoU should be written.

KC Lumbard communicated by email that LHS requests the use of MRRA launches to be used by LHS coaching staff during the fall 2022 season.

BoD discussed requests and agreed unanimously to honor the requests with the understanding that sculling equipment use would be limited to Learn to Scull equipment; that activities needed to be coordinated across all programs; all crews would be supervised at all times; rowing would be Off-Peak; MRRA grants a "scholarship" of a comped, student membership, student logbook for the balance of the fall rowing season.
