Some "hits" we took 2023

Logbook rowing in general was low last year with the rain and fast flow of the river

Festival wasn't held

Linas Alinskas and Lisa Mosca will run learn to scull

Dennis McCarthy gave an update: all is not lost in our endeavor for a new Boathouse

The City Manager got in touch with Dennis and currently the thought is a sharing with a possible VFW building (kitchen/bar)...

Potential for doubling maybe tripling our current space to ~5,000-7,800 sq ft BH

If so, we will likely will reach out to a few area clubs to see if we can bring them in/onboard

Safety Message:

Once the water and air temps warm up and we hear from the Boat Captain

Cold water temps precautions:

Stormy Seas is a great vest- has a CO2 cartridge, vest has a pull cord, available on Amazon doesn't interfere with rowing
